

K-LOVE is an FM radio station in the Colorado area that is like no other. It provides a community service that no other radio station in our area does.

If K-LOVE was displaced by a LPFM broadcaster many voices that inspire us spiritually and mentally would no longer be available as well as information about events that are coming to the area would have no good way to get to the community.

If K-LOVE was displaced it would not be good for the community at all. Please don't destroy something good trying to bring about change unless you have a way to keep the good intact.
